

Austria solar container system

Overview

Solarcont has developed a portable, containerized PV system featuring 240 solar modules on a folding system for easy removal and storage. The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight and environmentally friendly aluminum rail system, enables rapid and. The Austrian energy company SolarCont has developed a mobile solar container that stores foldable photovoltaic panels for portable green energy anywhere. The foldable photovoltaic panels are tucked inside a container frame with corresponding dimensions, and once they are moved and set in place. Solarfold allows you to generate electricity where it's needed, and where it pays to do so. The lightweight. Austrian startup Solar Container has introduced a groundbreaking solution to portable renewable energy with its innovative SolarCont system, housed in a standard-size container.
