

Brasilia company s own power station energy storage

Overview

As Brazil pushes toward carbon neutrality, Brasilia's new energy storage power station has become a beacon of innovation. This 240 MWh facility – South America's largest lithium-ion battery project – demonstrates how cities can stabilize grids while integrating solar and wind power. A public consultation regarding the auction should be launched in the coming days, as details regarding the capacity sought and the total amount allocated for the auction have. Brazil launched on Thursday its first large-scale energy storage system with a total capacity of 30 MW, power sector regulator Aneel announced. We energized the country's first project in 2022 at the Registro Substation (SP), one of the facilities responsible for supplying electricity to the southern. The Brazilian National Electric Energy Agency (ANEEL) is entering a new phase of dialogue on energy storage regulation. On December 10, 2024, ANEEL presented the results of the first phase of Public Consultation (CP) No.
