

## Cambodia three phase inverter

### Overview

Phnom Penh's inverter factories now offer direct sales to businesses and households, slashing costs while boosting energy independence. Solar Green Energy Cambodia (SOGE) was founded by a group of Cambodian technicians as a Renewable Energy Development Association based in Kampong Thom province in 2008. In 2014, SOGE was officially registered under the Ministry of Commerce. SOGE focuses on creating long-term social, economic, and. The client approached Greensun to customize a photovoltaic energy storage system After understanding the client's needs, we designed a 160kW + 418kWh energy storage project. The system configuration is: two 80KW Deye three-phase inverters. The system is currently running well, and the customer is. Solar inverter can convert the variable DC voltage generated by PV solar panels into AC with power frequency, which can be fed back to commercial transmission systems or to off-grid power grids. Why Phnom Penh Looking for reliable solar inverters straight from the source?

Protection Function: Phase loss protection, phase short circuit protection, ground circuit protection, input and output short circuit protection.
