

Corrosion-resistant folding containers for chemical plants

Overview

Acids and corrosives safety cabinets are labeled storage containers that safely store acids and corrosives to protect them from hazards and help contain spills that can contaminate worksites. Ready Containment chemical pillow tanks are a proven solution for the safe storage and handling of industrial and hazardous liquids. Because these containers are stackable up to six high when loaded to capacity, you get the flexibility you need for. At ACO, we specialize in high-quality vertical storage tanks for various industries across Canada and the USA, featuring seamless, one-piece designs. Molded from chemical and corrosion resistant polyethylene, these. If you're tired of high maintenance costs and worrying about the integrity of your current system, you need a proven solution built for heavy-duty chemical storage. Shop industrial Chemical IBC Totes from Tank Depot. It can also be autoclaved and is better for use in higher temperature situations.

Article Content
