

## Current status of energy storage container yard

### Overview

The residential storage market expanded 608 megawatts (MW) in Q2. This represents a 132% increase year-over-year and an 8% jump quarter-over-quarter. Most of the growth was driven by California, Arizona, and Illinois, as attachment rates hit new highs and higher-capacity systems. Energy Storage Summit 2026 finished yesterday, having brought the industry together for its first major meeting of the year. The 2026 edition of The Energy Storage Report is out now and available to download, charting the key trends, challenges and successes in the industry. Utility Xcel Energy. INTERVIEW - Sonnen aims at 11. 2 GWh of VPP capacity in US, Canada about 1 hour ago Plug Power abandons NY project, to sell terrain to data centre firm about 6 hours ago Europe tops 300 GW of wind capacity after 19 GW added in 2025 1 day ago Growing module sales boost First Solar's earnings in 2025. The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, the sector continues to grow as developers push forward with larger and larger utility-scale projects. Thirty miles from downtown Dallas, in semi-rural Midlothian, sits what appears to be an unsuspecting industrial yard, with rows of odd-looking shipping containers similar to those seen on the back of an eighteen-wheeler, covering 13 acres of land. This guide will provide in-depth insights into containerized BESS, exploring their components.
