

Electric vehicle policy kuala lumpur

Overview

KUALA LUMPUR (Oct 11): The Malaysian Automotive Association (MAA) has urged the government to consider maintaining a balanced policy framework that continues to support both completely built up (CBU) and completely knocked down (CKD) electric-vehicle (EVs) segments. The investment, trade and industry minister said talks are ongoing with the Finance Ministry to explore new initiatives that could sustain electric vehicle adoption beyond 2026. — Bernama pic Stay updated on the latest news and insights. Subscribe to our newsletter here (New users only) Unlock 4%*. Malaysia sets a goal for xEVs (including battery electric vehicle and hybrid vehicles) to make up 20 per cent of annual new vehicle sales by 2030. It assesses the policies enabling this shift, the progress achieved, and the challenges faced, while offering recommendations to enhance the transition's effectiveness.
