

# Ethiopia solar Energy Storage Support Plan

## Overview

Summary: Ethiopia has announced a tender for a groundbreaking new energy storage project aimed at stabilizing its renewable energy grid. This article explores the project's scope, industry trends, and strategies for companies to participate effectively. Discover how this initiative aligns with the goal of affordable, reliable, sustainable, and modern energy for all by 2030. This Compact serves as both a strategic blueprint and a call to action, mobilizing national leadership, local communities, development partners, and the private sector in a collective effort to transform Ethiopia's energy. The International Solar Alliance (ISA) has announced a firm commitment to supporting Ethiopia's significant push into solar energy development. To capitalize on this, he confirmed that the National Roadmap for Scaling Up Productive Use of Renewable Energy (PURE) in Ethiopia was developed by the Ethiopian Solar Development Association (ESEDA) and the National PURE Taskforce chaired by the Ministry of Water and Energy (MoWE), with the financial support of the German Federal.
