

German Intelligent Photovoltaic Energy Storage Container 25kW

Overview

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ecologically-friendly aluminium rail system guarantees a mobile solution with. Established in 2007, TANFON is a leading solar energy manufacturer utilizing German technology. We specialize in industrial and commercial solar systems (for factories, agriculture, schools, villages, and building electricity) as well as BESS megawatt-level battery energy storage projects. This system is realized through the unique combination of innovative and advanced container. Would you like to generate clean electricity flexibly and efficiently and earn money at the same time?

With Solarfold, you produce energy where it is needed and where it pays off. The award is presented annually by the market research firm EuPD Research and is based on a survey of solar installers in Germany, Austria and Switzerland. Whether you want to power your home or participate in grid services, SigenStor is ready for future vehicle-to-home (V2H) and.
