

## Grenada peak shaving

### Overview

Peak shaving involves briefly reducing power consumption to prevent spikes. This is achieved by either scaling down production or sourcing additional electricity from local power sources, such as a rooftop photovoltaic (PV) system, batteries or even bidirectional electric vehicles. At Spice Isle Retreat Spa and Salon, we place the highest priority on every element of a client's experience with us. We. Enjoy expertly delivered treatments in a smooth, timely flow—without ever feeling rushed. Trusted by beauty lovers islandwide. Our signature touch has become the standard for refined elegance and precision. We blend warmth, professionalism, and intuitive care to make. Peak shaving, also called load shedding, is a cost-saving technique used by businesses to reduce electricity expenses by minimizing peak electricity demand, thereby lowering demand charges. This strategy allows businesses and homeowners to save on energy costs by limiting power import from the grid when demand—and. FARI GRENADA At Fari Grenada, Your Beauty & Wellness Come First Relax, rejuvenate, and redefine your look with our luxury spa services.
