

High quality hybrid inverters in London

Overview

In 2025 the market has a strong crop of hybrid inverters that make adding battery storage simple — but not all inverters are the same. Below we run through Sunbright Energy's top five picks for UK homes, explain who each is best for, and flag the real-world drawbacks you. GivEnergy design and manufacture their own inverters, batteries and state-of-the-art management system and monitoring platform which combine to offer an exceptional storage package. Get exclusive articles, recommendations, shopping tips, and sales. Hybrid inverters combine solar generation and battery storage into one smart, integrated solution-allowing you to maximise self-consumption, reduce grid reliance, and take control of your energy. We don't stock every brand, only those we trust, like Growatt, GivEnergy, and Sunsynk. Or the backup side was never wired for real life loads, so the first. PEACE + QUIET – Get the job done without the racket with a dBa of only 61, ideal for campsites or quiet construction. HIGH POWER – As one of our highest power inverter generators, get 3600 watts and a run time of 14 hours on petrol or up to 21 hours from 9kg of propane. EASY START-UP – The EZ start.
