

How to pull the battery onto the base station

Overview

When placing the battery into the charging slot, make sure the Top (Upper) side is facing upward. The “+”, “T”, and “-” symbols should be facing into the slot. This alignment is important; we don't want the battery getting stuck! Once the battery is aligned, gently slide it into. Safely removing the battery from your SimpliSafe base station involves a few simple steps. Your SimpliSafe base station relies on a battery backup to keep your home. Instead, the battery rests on a small internal notch, which means a gentle downward motion is key to getting it seated properly. Each battery is conveniently marked so you can tell which side is the Top and which is the Bottom. 2V, 1300mAh nickel-metal hydride (NiMH) rechargeable batteries. Ensure your system stays functional and secure. It stations is recommended with corresponding to bands frequency base 4.
