

Huijue outdoor power supply can be charged and used at the same time

Overview

Portable Design: Compact and lightweight, easy to carry for camping, traveling, or any other outdoor activities. It uses lithium iron phosphate battery, with 3000+ cell cycles, and the electronic components can be used for about 5000 hours. Using HyperFlash black technology, it can be fully charged in 1.5 hours automatically, no need to carry additional adapters. Standby Backup: This could be a reserve in case of a general power outage or. There are several -48V outputs that are able to power several devices at the same time. The enclosure reaches IP65 protection level, making it suitable for outdoor installation. It supports long-term backup with battery modules and offers remote monitoring, multiple protections, and several -48V outputs for efficient operation in various scenarios like micro. The HJ048 series outdoor small integrated DC power supply features IP65 protection grade, multi-device and long backup support, remote monitoring, kinds of protection mechanisms, and multiple network access layer applications.
