

Industrial solar aluminum frame supplier

Overview

Aluminum solar panel frame is a type of aluminum extrusion frame which you can use to fix and seal solar components. Most of the solar panels have solar panel frames which hug the solar back sheets and glass covering at the top. Aluminum solar panel frame Solar panel frames are important because of the following reasons:

1. Solar panel frames fix and seal the solar modular components in one position for easier movement and installation.
2. It protects the battery of the solar.

There are three main types of solar panels which include:

1. Monocrystalline solar panels
2. Polycrystalline solar panels
3. Thin-film solar panels

Yes, Wellste provides custom aluminum solar panel frame designs. Wellste has a team of engineers with enough experience to assist you with the custom solar panel design. No, there is no recommended aluminum solar panel frame thickness. However, you have to ensure that the solar panel frame is not too thin and weak. It should not be too thick thus increasing the weight of the solar panel frame.
