

## Install the photovoltaic panels level

### Overview

Most panels measure 65 inches by 39 inches, so plan rail spacing accordingly. Dig holes 3-4 feet deep below the frost line in your area. Solar panel installation costs range from \$15,000 to \$30,000 for an average American home, with a payback period of 6 to 10 years depending on your state's incentives and sun exposure. This comprehensive guide walks you through every step of your solar project, from initial assessment to system. Solar panel systems, also called solar photovoltaic (PV) systems, are an increasingly popular choice for homeowners looking to reduce their carbon footprint and save money on energy bills. Starting with a detailed site assessment to evaluate solar potential and optimal setup, the process ensures efficiency and. Ground-mounted solar panels operate like a typical rooftop system but are generally more efficient. Rails must be level and properly spaced to support panel dimensions. Ground-mounted systems require concrete.
