

Is it legal to resell outdoor photovoltaic panels

Overview

There is no federal license required to sell solar panels; this responsibility falls to individual states. Some jurisdictions have created a specific license category, often called a “Home Improvement Salesperson” (HIS) registration. Navigating these requirements is a matter of compliance for the seller and a point of protection for the consumer. Instead of assuming that all used panels are trash, conduct an audit during decommissioning to determine if reuse is possible. “Waste panels often aren't waste,” states Adam Minter, author and journalist. Location dramatically impacts profitability – With 34 states plus D. offering mandatory net metering and others having limited programs, your state's policies can make or break the financial case for solar. If you are disposing of solar panels. (1) Notwithstanding any provision of this chapter or other provision of general or special law, the adoption of an ordinance by a governing body, as those terms are defined in this chapter, which prohibits or has the effect of prohibiting the installation of solar collectors, clotheslines, or other. Can you sell solar panels to a specific company if you move into a house that has them, but you do not want them?

: r/solar Discussion of solar photovoltaic systems, modules, the solar energy business, solar power production, utility-scale, commercial rooftop, residential, off-grid systems and.
