

# Italian double-glass module manufacturer

## Overview

Our core business lies in the design, manufacture and marketing of standard, custom and coloured monocrystalline and polycrystalline photovoltaic modules, in various power ranges and dimensions, also for the maintenance (breaks, defects, faults, theft) and modernisation of old. Our core business lies in the design, manufacture and marketing of standard, custom and coloured monocrystalline and polycrystalline photovoltaic modules, in various power ranges and dimensions, also for the maintenance (breaks, defects, faults, theft) and modernisation of old. The project, named FENICE (FuturaSun advancEd italiaN manufacturIng CENTre), has entered the Grant Agreement Preparation stage, marking a crucial milestone towards establishing a state-of-the-art factory specializing in next-generation photovoltaic modules. Where are photovoltaic modules made?

Every. La Vecciarelli srl, founded over 40 years ago in Priverno (LT), is a benchmark in the production and processing of custom glass, both for the residential sector and for industrial applications. Glass - Crystals - Safety Glass - Laminated Safety Glass - Tempered Insulating Glass - Acoustic. DAS Solar is always a faithful companion where there is light. Our industry-leading module power contributes to a conversion efficiency of 23. We offer optimal automation and quality solutions at every production step, backed by comprehensive training. To support customers effectively, Ecoprogetti has Sales & Service offices in India. We have decided to directly and independently manage the recycling of photovoltaic modules. Of course, we will not deal with our panels for at least 30 years, but we will turn the panels we have put on the market so far into a resource. 0 Bifacial Double Glass Module DAS-DH132.
