

Juba energy storage equipment installation

Overview

Juba Military Hospital has officially commissioned a new 150 kWp solar PV system integrated with a 217.62 kWh battery bank, marking a significant step towards sustainable energy in South Sudan's healthcare sector. The Juba Solar Power Station is a proposed 20 MW (27,000 hp) in. The solar farm is under development by a consortium comprising of Egypt, Asunim Solar from the United Arab Emirates (UAE) and I-kWh Company, an energy consultancy firm also based in the UAE. 14kWp with a 218kwh battery energy storage capacity for offices in Juba. The system is roof mounted and works alongside the city grid. Costs range from €450–€650 per kWh for lithium-ion systems., founded in 2017, is a high-tech enterprise specializing in the research and development, production and sales of energy storage battery management systems (BMS) and photovoltaic inverters.
