

# Korean network rack-mounted servers used in chemical plants

## Overview

TECHWIN's maintenance business serves chemical plants, electric, gas and water utilities as well as industrial land commercial customers, with a broad range of products, systems and services based on IT. Comark's Industrial Grade 2U and 4U Rackmount Servers are built to deliver high performance and reliability in demanding environments. Whether for building automation, manufacturing, or other industrial applications, these servers are engineered to meet rigorous industry standards while offering. XCalc is a storage TCO calculator for large workloads that offers simple calculation of available storage space of QSAN products configurations. Enterprises commonly turn to cloud collaboration to bridge data between computing platforms. We offer various pre-configured motherboard rackmount servers in 1U, 2U, 3U, 4U, 5U rackmount server cases.
