

Lead capacitor direct plug

Overview

A Type B rewirable US 3-pin NEMA 5 15 plug. Notice the rounded earth connector, which is not always available on US sockets. Many older US sockets accept only the 2-pin plug, and cannot be used with any appliance that. A Type A rewirable NEMA 1-15 US 2 pin plug. For more information and a wiring diagram please see the article on our Wiring an American Plug page. If you're looking for an. A Type H Israeli three pin Plug. This plug, defined in SI 32, is unique to Israel and is incompatible with all other sockets. It has rounded pins that form a V-shape rather than being parallel, and older versions have flat pins. Rated at 16. A Type M South African 3 pin plug. The single pin without the sleeves is the earth connection, but note that the sleeves shown on two pins in this image are not part of the South African approvals, and may be bare on product. A Type L Italian 3 pin plug. The 10 ampere style is like the European 2 pin except that it is earthed by means of a central earthing pin. The single pin without the sleeves is the earth connection. We have Italian plugs and sockets.
