

# Longi's latest photovoltaic panel products

## Overview

The EcoLife series brings Longi's back contact technology to the residential solar market with panels that reportedly offer quicker system payback and reduced power degradation over time. Chinese PV module maker Longi has debuted its new EcoLife series of solar panels. At the key node of intergenerational transition of global Photovoltaic (PV) technology, the back contact (BC) cell technology is leading the new-generation PV technology paradigm revolution, becoming the core engine to drive industry cost reduction and efficiency improvement and realize energy. Chinese solar manufacturer Longi unveiled a new PV module with 25. Chinese solar module manufacturer Longi unveiled a new solar module this week at the SNEC 2025. As of February 25, 2025, LONGi Green Energy has implemented a price adjustment for distributed generation systems, with increases ranging from ¥0.05/W due to recent power reform policies. The Hi-MO X10 Guardian Light Design module is built on the company's hybrid passivated BC 2. Their product range also includes monocrystalline silicon wafers, building-integrated photovoltaic solutions (BIPVs) and alkaline water electrolyzers.
