

Low-Temperature Energy Storage Cabinet for Indonesian Power Distribution Rooms

Overview

All-in-one air-cooled ESS cabinet ini mengintegrasikan long-life battery, efficient bidirectional-balancing BMS, high-performance PCS, active safety system, smart distribution, dan HVAC dalam satu cabinet, memungkinkan operasi jangka panjang yang aman, stabil, dan andal. As Indonesia's capital races toward its 23% renewable energy target by 2025, containerized energy storage systems (CESS) have become the backbone of Jakarta's power infrastructure projects. These modular units combine high-capacity batteries with smart management systems - imagine a Swiss Army. This technology catalogue is a result of the close cooperation between Indonesian and Danish Government under the Indonesian-Danish Energy Partnership Programme (INDODEPP). Gratitude goes out to everyone involved from DG Electricity, Danish Energy Agency, Embassy of Denmark in Jakarta and Ea Energy. Highjoule's industrial and commercial energy storage system adopts an integrated design concept, with integrated batteries, battery management system BMS, energy management system EMS, modular converter PCS and fire protection system in one. Melalui AC side parallel.
