

Manufacturer of self-made photovoltaic panel support frame

Overview

Robots, lasers, electricity from the sun and over 35 patents in 50 years, Powers Solar Frames know what they are doing! Whether you use the straight box beam or tapered design, you will benefit from faster installation, a pleasing design, no on-site welding and fewer inspections. Origami Solar is the only developer of domestically-produced, steel solar module frames. We design the solar PV support frames that achieve the fastest and simplest of installation for all landscape and portrait combination, and provide material and parts with highest of quality standards. Our steel frame is made by cold formed light gauge steel construction profiles. Furthermore we can manufacture according to customer wishes. Product Details: Alumetrik Solar Module Frames are engineered for durability and precision, offering exceptional. To build your own solar panel frame, you'll need basic tools like a saw, drill, and measuring tape, along with pressure-treated lumber and fasteners.
