

Microgrid connection approval

Overview

Prior to connecting, the distributed generation system owner must obtain written approval from the local utility in the form of an Interconnection Service Agreement and subsequent Authorization to Connect. Information on the process to connect new buildings to the electric grid can be found on a separate website (see link below). As extreme weather and physical and cyber-attacks on grid infrastructure have led to outages of increased duration, scale, and impact on power customers and. View resources and requirements for installing a distributed generation connection. printed form by. New Inverter Standards: Pursuant to California Public Utilities Commission (CPUC) Resolutions E-5000 (PDF) and E-5036 (PDF). PG&E will require interconnection applicants to use UL1741 SB Certified inverters and Common Smart Inverter Profile Conformance (CSIP) starting on August 29, 2023.
