

New style yard solar integrated machine for home use

Overview

This rugged, high-output unit features an integrated inverter/charger with a massive 1700W / 170V DC solar input capacity and 1650W standard AC fast-charging. Handles harsh operating and transportation environments. Inverter make this product optimal for large professional-grade. The Stream series is a plug-and-play solar energy solution designed for homeowners and renters alike. Place on a balcony, roof, or backyard, and plug into a wall socket. Designed for homeowners and renters alike. SmartFlower Solar produces unique, ground-mounted solar panel systems that include a sun tracker and a number of other high-tech features. From sunrise, the system captures solar energy and delivers it directly to your home through its grid-tied output. Surplus energy is. Battery Technology Drives Total Cost of Ownership: LiFePO4 batteries cost more upfront but deliver 95-100% usable capacity and 3,000-5,000 cycles versus AGM batteries with only 50% usable capacity and 500-800 cycles, making lithium significantly more cost-effective long-term. What are a few brands that you carry in Off Grid Solar Systems?

We carry ACOPower, WindyNation, Renogy and more.
