

Photovoltaic panel installation requires government approval

2MW / 5MWh
Customizable

Overview

Yes, most solar panel installations require permits. Whether you're installing rooftop panels or a ground-mounted system, local building departments typically require permits to ensure safety, code compliance, and proper grid connection. Automated permitting is revolutionizing the industry: SolarAPP+ now provides instant permit approval in 275 jurisdictions across 13 states, reducing processing time from weeks to minutes for standard residential installations. Unpermitted installations carry severe financial risks: Beyond fines of. Permitting and inspection are required before a solar array is allowed to produce electricity on the grid. Learn how proper approvals ensure your system is safe, legal, and correctly grid-tied. Homeowners and contractors must navigate the permitting process, which varies by city and county, to legally install solar energy systems.
