

Photovoltaic panel special wrench model

Overview

LEADER® solar PV spanner wrench is a wrench specially used for photovoltaic solar connectors. The body is made of high-strength plastic injection molding. It is durable, light in weight, small in size, easy to carry, and compatible with popular solar connectors such as MC-4 and. ✓ Easy to Connect: Use the wrench to fix the base and body of the solar panel connector separately, then turn the wrench to tighten the solar connector to the solar cable. Three sizes (1500V/1000V) of base holes and two sizes of fixing holes were designed to accommodate different connectors. ✓ Klein Tools complete PV Connection Solar Tool Set is designed to easily install and maintain solar panels. The kit is secured. Professional Design: The perfect mounting solar wrench with a variety of Solar hole designs, which is used for assembling and disassembling connectors, and can also be used for disassembling photovoltaic fuses. Consumers typically keep this brand's items.
