

Q235B Processing Solar Photovoltaic Bracket

Overview

Characteristics of Q235B photovoltaic bracket: yield strength $\geq 235\text{MPa}$, tensile strength 375-500MPa, elongation $\geq 26\%$, good processability, suitable for cutting, bending, straightening and other processing, good welding performance, simple chemical composition, not easy to produce cracks during. Solar PV Mounting Brackets with All Accessories Solar Support Systems Photovoltaic The connectors including the triangle connector, hoop, purlin connector, L connector, hook and so on. They are made by hot-dip galvanizing steel and can guarantee long service life. All the accessories suitable for. C-Steel Ground Mounting System is applicable for PV array system on the open fields. Steel solar bracket structures mounted pv system uses cost-effective section steel structure, it is applicable for large-scale solar plant. We are available 24/7 via email or telephone for solar mount. More solar Q235B mounting solution Solutions welcome to contact us!.
