

Seismic-resistant outdoor telecom enclosure for tunnels

Overview

Explore AZE's premium NEMA-rated and weatherproof enclosures designed for telecom, industrial electrical, and energy storage applications. Built to withstand harsh environments and extreme conditions, our enclosures ensure optimal protection and peak performance for your critical. Frigate's EMI-shielded, thermally optimized enclosures support mission-critical telecom systems. HVAC climate control, electronic land panel, a side spool cabinet, extra battery support for battery backup, backup generator plug, reversible rack rails and a 3-point locking system for superior. Westell is a collaborative partner in OSP deployment optimization providing customized, fully integrated, vendor neutral outdoor network equipment enclosures. With proven expertise in system integration, Westell also manages the details for design assistance, planning, thermal management. Charles Universal Broadband Enclosures (CUBE) are constructed to withstand the elements and provide superior protection for active electronics in all environments.
