

## Solar bracket export tax rate

### Overview

Don't underestimate this difference: the Tax Rebates rate difference between 7308 and 7216 is 13%. Choosing the wrong code can lead to significant losses. Today, let's talk about the key points of classification for photovoltaic equipment and common components to help you avoid common pitfalls and make exporting smoother.

Photovoltaic. "This 126% is for any modules which will be using India-based cells, which again must have all non-Chinese sources and in our case, we don't use those cells. So this 126% is not applicable for us at the given moment and our supply chains are tied up at around 10% jurisdiction," Sonal Shrivastava of. Let's face it – customs paperwork isn't exactly a thrill ride, but getting your photovoltaic bracket export declaration right could mean the difference between smooth sailing and watching your solar components gather dust at some port warehouse.

00: CSPV modules (additional duty) Additional Duty Rates for CSPV Modules In addition to duty rates applicable under subheading 8541. 00: Such duty shall be imposed on the declared value of such. According to foreign media reports, the U. Department of Commerce recently announced the preliminary determination of the anti-dumping investigation of aluminum profiles, identifying 14 countries including China, Colombia, Ecuador, India, Indonesia, Italy, South Korea, Malaysia, Mexico, Taiwan. Polysilicon is fine-grain silicon with a minimum purity level of 99.
