

Solar photovoltaic power generation bankruptcies

Overview

Some major players in the solar power industry (Sunnova, Mosaic, etc.) residential and finance sectors, have filed for Chapter 11 bankruptcy protection or announced major closures in 2025. However, 2024 has brought immense challenges, with higher interest rates, tighter financing, and adverse policy shifts in key states contributing to over 100 solar bankruptcies based on our industry data, a number unseen before in our almost 20 years in the solar sector. The United States Bankruptcy Court for the Southern District of Texas has approved the sale of the Sunstone solar-plus-storage project to Amazon Energy. 2. According to our internal data, more than 100 solar companies have shut their doors this year alone—a level of contraction we haven't seen in nearly two decades. Department of Energy's first loan guarantee under the American Recovery and Reinvestment Act of 2009, an infamous.
