

# Solar power generation for resettlement housing

## Overview

To harness solar energy effectively on the balcony of resettlement housing, consider these key points: 1. Install solar panels for electricity generation, 2. Implement energy-efficient appliances to maximize energy usage, 4. Optimize orientation. Resettlement Plan Regional Emergency Solar Power Intervention Project (P179267) (English) Official version of document (may contain signatures, etc) \*The text version is uncorrected OCR text and is included solely to benefit users with slow connectivity. Resettlement Plan Regional. enerate power. This. Prepared by AECOM India Private Limited and ENREN Energy Private Limited for the Asian Development Bank (ADB). The views expressed herein do not necessarily represent those of ADB's Board of Directors, Management, or. IKEA and the UN refugee agency (UNHCR) collaborated in creating the solar-powered flat pack refugee shelter designed to protect women and children living in makeshift camps.
