

Solar ridge tile support

Overview

Options for mounting solar panel systems on to tile roofs including hooks, flashings and posts for all types of tiles; cement, flat, curved, S-tile, Spanish tile, clay or slate. The SOLARHOOKS™ portfolio includes three components that work together but are sold separately: tile hooks, tile replacement flashings, and optional sub flashing. The dual functionality of roof replacement and energy generation often justifies the premium cost, with payback periods of 8-10 years when factoring in. Install Solar Roof and power your home with a fully integrated solar and energy storage system. The glass solar tiles and steel roofing tiles look great up close and from the street, complementing your home's natural styling. Schedule a virtual consultation with a Tesla Advisor to learn more. All Tile Hook is a simple, adjustable roof attachment for mounting solar on tile roofs. It works with flat, S, and W tiles, can be used with an available Deck Flashing and utilizes 7/16" hardware—making it a single socket installation. Available in both penetrative and non-penetrative options.
