

# Transaction Terms for 500kWh Outdoor Photovoltaic Shelves for Resorts

## Overview

This document has been published with the support of Andy Walker, Otto VanGeet, Tom Harris and Chandra Shah of the National Renewable Energy Laboratory (NREL). THIS RENEWABLE GENERATION AND ENERGY STORAGE TERM SHEET (the “Term Sheet”) is entered into as of (the “Effective Date”), between San Diego Community Power (“SDCP”) and (“Respondent”). The enclosed technical template language is intended to provide only example language for agencies to consider in the process of assembling. — Major customers that have signed a significant number of energy purchase agreements include Amazon, Google, Sainsbury's, Microsoft, and many other important offtakers that have 2030 net zero targets. Phase 1: Starting with PPA procurement. What is a Power Purchase Agreement?

What is a corporate. A Solar Power Purchase Agreement (SPPA) is a financial arrangement in which a third-party developer owns, operates, and maintains the photovoltaic (PV) system, and a host customer agrees to site the system on its property and purchases the system's electric output from the solar services provider. This document formalizes the agreement for the purchase of solar power between the Seller and the Buyer, effective as of [Contract Start Date]. The Seller agrees to sell and the Buyer agrees to purchase solar energy generated at [Specify Location], subject to the terms and conditions of this. The term “Solar Panel System” includes, but is not limited to, all Solar Panel System components, panels, inverters, charge controllers, batteries, battery charge controllers, backup generators, solar array disconnects, power meters, power converters, and cables presently in place on the Property.
