

UPS battery cabinet installation location

Overview

The EBC can be installed in a rack. Locate the accessory brackets and M4 screws. Use M5 screws provided to secure the EBC to the rack. Perform one of the following once the UPS is in its final position: Lower the leveling feet until the casters no longer have contact with the floor, OR Reinstall the front transportation bracket (870-32577) on the UPS and mount it to the floor, OR Install the seismic anchoring kit. Install the equipment per NEC Table 310.16 and/or all applicable national and local code requirements. See battery specifications for optimal operating temperatures. Clearance around the equipment should be as suggested by NEC and/or all applicable. **IMPORTANT:** Before installing, connecting to supply, or operating your Emerson SolaHD S4K-D UPS, please review the Safety and Regulatory Statements sheet. For detailed installation, operating, maintenance and troubleshooting information refer to the S4K-D User Guide for your model by scanning the QR. 1.
