

Vienna electric vehicle market

Overview

In the first two months of 2025, BEV sales improved by 29. This made Austria the ninth-biggest all-electric vehicle market in the EU, as it outpaced the bloc's overall BEV growth. PHEVs also enjoyed solid growth in Austria, up 20. The total number of BEVs registered by the end of the year stood at 200,603, a substantial increase from 155,490 in 2023. However, the pace of growth in BEV registrations slightly. The annual publication 'Highlights 2024 - Facts & Figures on e-mobility in Austria' is created and provided by AustriaTech in its role as OLÉ - Austria's National Competence Center for E-Mobility in a comprehensive and easily digestible format. Here you can find detailed information about markets, trading and members. The Vienna Stock Exchange offers a large variety of IT services. This share was 92% in Norway, and in China, it was almost 50%. How does this compare to the wider EU market, and could upcoming changes to government incentives slow down this growth?

Tom Hooker, Autovista24. Current figures of new registrations, vehicle population and an overview of all public accessible charging points for electric vehicles in Austria.
