

## Which company has the most powerful solar energy storage in latvia

### Overview

RIGA, LATVIA - [Date of Publication] - SUNOTEC, a leading international renewable energy developer, has announced a significant milestone in its European expansion with the acquisition of a project site in Latvia capable of hosting a 400MWp solar photovoltaic (PV) power plant and a 600MWh Battery. The 120.8 MW project, built by Lithuanian renewables developer Green Genius, is the largest single-site project in the Baltics. Work is currently underway on constructing a 50 MW/100 MWh battery energy storage system on-site. This acquisition will pave the way for the construction of a new photovoltaic (PV) solar power plant with a capacity of 400 megawatts. Bulgarian-German renewable energy development and construction company SUNOTEC has acquired a project in Latvia that combines 400 MWp of solar capacity with 600 MWh battery storage from Danish greenfield developer Danish Sun Energy ApS. The Lazas solar park project, located in Cirava Rural. European Energy has secured EUR 37 million. The storage system is designed to support grid stability, balance.
