

Who has worked in a solar bracket factory

Overview

Charge Robotics, founded by MIT alumni, has created a system that automatically assembles and installs completed sections of large solar farms. is located in Daqiu Zhuang Industrial Park, Jinghai District, Tianjin, a famous steel industry belt in northern China. It was established in 2020 and is a physical factory specializing in the production of metal products such as solar brackets, solar carport, solar panel roof mounts, solar ground. Xiamen Starwin Solar Technology Co., Ltd is a high-tech enterprise that integrates R&D, production and marketing of Solar Mounting System for residential, commercial and utility scale customers. We have our own aluminum profile factory located in Zhangzhou, Fujian. Images for download on the MIT News office website are made available to non-commercial entities, press and the general public under a Creative Commons. When it comes to reliable solar panel installation, I know the importance of a sturdy solar panel bracket. We can customize solutions for specific projects.
