

Wind power generation wind direction finder

Overview

The Global Wind Atlas is a free, web-based application developed to help policymakers, planners, and investors identify high-wind areas for wind power generation virtually anywhere in the world, and then perform preliminary calculations. Wind map with live wind radar & worldwide wind forecast. Run a wind assessment in a few clicks, no coding skills or complex setup required. Configure your settings Type in name, select number of wind directions you want to analyze, and set the geographic position of your project. Upload your models Upload STL or OBJ files for the main. Select or search for an area or point using the query tools on the map to download large-scale data. Create query for large-scale data download. The Wind Resource Database (WRDB) is a collection of modeled wind resource estimates for the United States and various countries around the globe of. Get the data you need to identify optimal wind sites, analyze high-resolution wind data and generate powerful reports — all in one easy-to-use, GIS-compatible platform.

Article Content

Wind Power Forecasting Application

This project involves the development and deployment of a wind power forecasting application leveraging machine learning and deep learning techniques. The application predicts wind power ...

Archiwind | NablaFlow

Investigate the fields from 16 wind directions, and increase the accuracy for the aggregated or averaged maps. All wind-assessment raw and processed data can be exported to perform additional custom ...

Windy: Wind map & weather forecast

Weather radar, wind and waves forecast for kites, surfers, paragliders, pilots, sailors and anyone else. Worldwide animated weather map, with easy to use ...

Windnavigator | For Wind Energy Site Prospecting and Feasibility

Windnavigator is a wind resource data platform that provides high-resolution wind maps, historical climate datasets, and GIS-ready wind data for site selection and feasibility studies.

Wind Resource Data, Tools, and Maps | Geospatial Data Science | NLR

Find and download resource map images and data for North America, the contiguous United States, Canada, Mexico, and Central America. View an interactive map or download ...

Windfinder

Wind map with live wind radar & worldwide wind forecast. See live weather reports, wind speed & waves for kite- & windsurfing, sailing, fishing & hiking.

Wind Map

Find the most efficient locations for wind turbines and your wind power needs.
